

II. THE TITLE

Please replace the Title of the Invention as rewritten below:

--WIRELESS DISPLAY CONTROLLER FOR INBOUND AND OUTBOUND MAILING
AND SHIPPING SYSTEM--

III. SPECIFICATION AMENDMENTS

Please replace the paragraph/section beginning on page 1, line 8 through line 11 as rewritten below:

The present invention generally relates to mail and parcels processing systems and in particular to a multi-use wireless display/control panel for an mail processing system inbound and outbound mail and parcels processing system.

Please replace the paragraph/section beginning on page 3, paragraph 0009 as rewritten below:

The present invention is directed to a mail processing system. In one embodiment the system comprises a franking machine mail and parcels processing system and at least one removable user interactive display coupled to the franking machine system. The removable display includes a wireless connection for wireless communication between the removable display and the mail and franking machine mail and parcel processing system when the removable display is disconnected from the franking machine.

Please replace the paragraph/section beginning on page 9, paragraph 00028, line 9 as rewritten below:

to perform other tasks related to mail and parcels processing and

Please replace the paragraph/section beginning on page 14, paragraph 00034, line 2 as rewritten below:

other mail and parcels processing devices
